The Original GREEN COMPANY

Drifters has a proud history of conservation that spans over 4 decades. Our approach to running tours in a safe and sustainable manner is green to the core with numerous projects launched over the years that not only benefit the environment and local communities but also our guests on tour giving them a unique and sustainable experience.

Over the last 38 years we have invested in the environment and local communities rebuilding nature areas that were once on the verge of destruction and thus ensuring that the local communities benefit from the proceeds of tourism. Our involvement with nature areas like the Drakensberg, Namibia, our Maun Lodge in Botswana and the Lodges in Balule adjacent to Kruger Park are shining examples of years of rehabilitation and investment to turn these properties into thriving nature areas filled with indigenous plant and animal species.

Our efforts do not stop at rehabilitating nature areas but expand to the local communities that live in the areas we visit and work. By employing only local guides from Southern Africa for our scheduled groups tours is just the beginning. Throughout our tour routes we employ local people that live in the vicinity ensuring a sustainable future for generations to come. All of our Drifters staff have the opportunity to improve and advance their skill level through a study support program in place for them.

Caring for the environment to ensure that future generations will be able to travel with us and have the same experience we offer now is part of the essence of Drifters and remains a focus point for everyone on the team. Visiting sensitive nature areas is part of our experience and our guides ensure that we offer a fantastic experience but one that is controlled and has no damaging effect on the environment. Avoiding single use plastic wherever possible and the active promotion of safe and sustainable water use are two key aspects. Travelling through developing countries where limited facilities exist for good waste management our guides make a point of leaving no negative footprint in each campsite.

One of the oldest adventure tour companies in South Africa our approach to a sustainable future and the implementation of sustainable practices has been the focus since 1983. It remains one of the core values for the company and its employees driven to a greener future for all. Our affiliation to numerous governing bodies in Southern Africa that control and regulate the tourism industry is a stamp of approval for the practices implemented.

OUR HERITAGE

Established in 1983, Drifters has gone from strength to strength to become the leaders in adventure travel throughout southern and East Africa. Our packages are renowned for including far more than others on offer, and our vast infrastructure of Drifters owned vehicles, boats, canoes, adventure equipment and other resources mean that clients are able to enjoy the best of Africa without added expense.

OUR PRODUCT

All of our tours are inclined toward the interesting and often unique fauna and flora of Africa and for this reason we often leave the beaten track to explore remote areas where little or no familiar infrastructure exists. In these areas we generally camp, but all equipment is supplied, and no previous experience is necessary. All that you need to bring along is a sense of adventure and the clothes you will wear. (For the camping tours you also need to bring your sleeping bag!) When we enter built-up areas where facilities exist, we use Lodges, tented units or small hotels. Drifters tours are based on twin shared accommodation; however we do not charge a single supplement for individual bookings.

OUR CUSTOMERS

We target adventure-minded people, who through their own active participation in the tours get maximum enjoyment. Our clients are normally down-to-earth people from all walks of life and from all corners of the globe, who by choice have selected an adventure safari in order to enjoy the maximum experience. If you really wish to spend your time on an African safari with a small international group, and you relish the thought of an environmentally educative and adventurous experience where Roughing it and Loving it is the order of the day, then Drifters is your only choice.

ITINERARIES

The day by day descriptions published in this brochure or on the website are intended as a guideline only. Adventure travel by nature is unpredictable and weather patterns, game migrations, road conditions, travelling times and a multitude of other factors associated with travel in Africa may necessitate itinerary changes that ultimately are for the client's benefit. An open and flexible approach, a willingness to participate in the day to day of the tour procedures and an awareness of the elements are essential in order to get the most out of your tour experience.

Our aim is to show off the unique natural and cultural diversity of what is often referred to as "A World in One Country". Virtually the size of Europe, with over 3000 kilometers of unspoiled coastline, climatic zones ranging from searing hot deserts to cool crisp 3400m mountains - South Africa lives up to this reputation. Proudly boasting a multitude of fascinating ecosystems harbouring an infinite variety of fauna and flora as well as an equally amazing range of people and cultures - from the original Bushman to the most Western of ways, this truly is an unmatched destination. We visit the highlights, but also wander off of the beaten track to indulge in the great outdoors and to show off an array of South Africa's hidden gems and lesser known attractions.

Overnight stops are at comfortable lodges or hotels, all are in truly unique surroundings - whether in pristine reserves, high in the mountains or on a remote beach, each is carefully chosen to show off a different aspect of this captivating destination. The casual visitor to Botswana could be excused for seeing the country as kilometre upon kilometre of flat, desolate scrubland with little or no surface water. But on closer inspection, coupled with local knowledge, a whole new world will manifest itself, and what is arguably Africa's finest wildlife destination will be revealed. Botswana is a country the size of France, with over a quarter of its land set aside exclusively for nature conservation. Our tour will take us through the vast Kalahari plains where we meet with the local Bushmen, among the oldest peoples of Africa. We then venture further north, into the magnificent Okavango Delta, the world's largest inland river delta, which spills water from the faraway mountains of Angola into the vast plain of the Makgadikgadi, creating a unique wildlife paradise.

We explore the world renowned National Parks in fully equipped, open 4x4 vehicles, our route following the age old game migration tracks, depending on the season. We enjoy a game viewing boat cruise on the Chobe River, in Chobe National Park, and finally we visit "The Smoke that Thunders" - Victoria Falls. Clients may opt to fly out from Victoria Falls or to complete the journey back to Johannesburg, travelling southwards overland. This tour offers the adventure traveller, the photographer, the birdwatcher and the naturalist the ultimate natural paradise.

This epic tour visits a host of highlights in no fewer than four southern African countries. Africa is huge, and we'll have to drive quite a long way, often on rough roads, but our specially designed safari vehicle is up to the task. Each day will bring something new and exciting. Starting in Cape Town, we will visit the Cape of Good Hope and hike Table Mountain. We will canoe on the Orange River, a life-giving miracle in the arid dryness of the Richtersveld. In Namibia we will walk on the some of the world's highest sand dunes, fall in love with quaint Swakopmund, and explore the wild places of Etosha National Park. Botswana invites us to glide through reed channels in the Okavango Delta, an emerald gem in the vast dry expanse of the Kalahari Desert, and game view by boat in Chobe National Park.

In Zimbabwe we will be captivated by the raw power of Victoria Falls while we have the chance to test our nerves in Africa's adventure playground. An open vehicle game drive in Hwange National Park gives us yet another chance to get close to Africa's wildlife, and tracking rhinos on foot in Matobo will thrill and humble us all at the same time. Returning to Botswana we have a last chance to sit around a fire, taking in the night sounds and heady scents of the bush, before heading to Africa's richest city, the cultural melting pot of Johannesburg.

The casual visitor to Botswana could be excused for seeing the country as kilometre upon kilometre of flat, desolate scrubland with little or no surface water. But on closer inspection, coupled with local knowledge, a whole new world will manifest itself, and what is arguably Africa's finest wildlife destination will be revealed. Botswana is a country the size of France, with over a quarter of its land set aside exclusively for nature conservation. Our tour will take us through the vast Kalahari plains where we meet with the local Bushmen, among the oldest people of Africa. We then venture further north, into the magnificent Okavango Delta, the world's largest inland river delta, which spills water from the faraway mountains of Angola into the vast plain of the Makgadikgadi, creating a unique wildlife paradise. We explore the world renowned National Parks in fully equipped, open 4x4 vehicles, our route following the age old game migration tracks, depending on the season.

We enjoy a game viewing boat cruise on the Chobe River, in Chobe National Park, and finally we visit "The Smoke that Thunders" - Victoria Falls. Clients may opt to fly out from Victoria Falls or Maun or to complete the journey back to Johannesburg, travelling southwards overland. This tour offers the adventure traveller, the photographer, the birdwatcher and the naturalist the ultimate natural paradise.

This epic tour visits a host of highlights in no fewer than four southern African countries. Africa is huge, and we'll have to drive quite along way, often on rough roads, but our specially designed safari vehicle is up to the task. Each day will bring something new and exciting. Starting in Cape Town, we will visit the Cape of Good Hope and hike Table Mountain. We will canoe on the Orange River, a life-giving miracle in the arid dryness of the Richtersveld. In Namibia we will walk on the some of the world's highest sand dunes, fall in love with quaint Swakopmund, and explore the wild places of Etosha National Park. Botswana invites us to glide through reed channels in the Okavango Delta, an emerald gem in the vast dry expanse of the Kalahari Desert, and game view by boat in Chobe National Park.

In Zimbabwe we will be captivated by the raw power of Victoria Falls while we have the chance to test our nerves in Africa's adventure playground. An open vehicle game drive in Hwange National Park gives us yet another chance to get close to Africa's wildlife, and tracking rhinos on foot in Matobo will thrill and humble us all at the same time. Returning to Botswana we have a last chance to sit around a fire, taking in the night sounds and heady scents of the bush, before heading to Africa's richest city, the cultural melting pot of Johannesburg.

The Kingdom of Uganda is a fairy tale. Late applicants may join tours/ventures on an accommodation available basis.

PARTICIPATION

The assistance of clients in the daily activities forming part of the tour is essential. Clients will be expected to assist with the preparation of meals, setting up and taking down of camp (camping tours) and with other necessary daily chores. Clients will further be expected to adhere to the hygiene guidelines and requirements as specified by their guide. Participation in, and involvement of this nature will greatly enhance the degree of satisfaction and enjoyment clients derive from the tour.

GROUP SIZE AND AGE

Our group size usually numbers between 4 and 18 clients. By travelling in small groups, it means that we don't invade wilderness areas and can avoid wasting time in constantly having to wait for people. It also enables us to maintain a far more personal service to our clients. From our experience our groups are normally made up of international groups of individuals, couples and sometimes groups of friends.

MONEY AND CURRENCIES

Each tour will require different amounts of spending money, depending on the length of the tour and the individual needs of the client. Clients should budget for soft drinks, alcohol, restaurant meals and other items of a personal nature. Credit cards are not generally accepted in countries north of South Africa. Clients are advised to bring spending money in US Dollars and in small denominations. Tipping is part of Africa's culture, a reward for good service: 10% to 15% is the norm.

TRANSPORT AND DISTANCES

Hino trucks, Mini busses and Land Cruisers are amongst the vehicles operated on the tour, all chosen for their practicality and reliability. Vehicles seat up to 18 clients, depending on the application. The vehicles are not air-conditioned but are designed with customer safety and comfort in mind. Although the daily distances are well balanced, on certain days distances of up to 800 km are travelled.

GUIDES AND INSTRUCTIONS

Drifters' guides are all full-time, professional guides, chosen for their knowledge of the environment, their experience and ability. All guides are registered with the Field Guides Association and Tourism authorities. To ensure the safety and enjoyment of the group, the guide's instructions must be adhered to.

ACCOMMODATION

Depending on the tour, accommodation will be provided in tents, lodges, bungalows and rondawels (African style huts). Occasionally you may sleep under the stars. Accommodation is based on twin sharing. Single clients will be paired off with suitable roommates unless a single supplement is paid. When camping, Drifters provide camp beds but for added comfort and insulation clients may wish to bring along an inflatable sleeping mattress.

EQUIPMENT, SLEEPING BAGS AND NECESSARY ITEMS

All tour equipment including cooking and camping equipment, utensils, plates, tents, chairs and the like are provided. Clients are required to bring sleeping bags, small pillows and towels as well as toiletries and other personal items they may require for the tour. Sleeping bags can be hired/purchased from Drifters but this must be arranged prior to departure.

LUGGAGE ALLOWANCE

Baggage on all tours is limited to one large bag (barrel bag or internal framed backpack) weighing a maximum of 20kg and a small hand luggage bag or camera bag per person. In order to prevent complications on vehicles, boats and other transportation, this allowance must be adhered to.

LAUNDRY

A rudimentary laundry service is provided at some overnight stops. This service is only intended as a basic service for clothes and towels. Drifters will not be responsible for any loss damage or destruction incurred when making use of these third party services.

SMOKING

In accordance with South African legal requirements, smoking will not be permitted in our vehicles or in public spaces. We will however make regular stops for photographs and smoke breaks.

VISAS AND BORDERS

Although every possible assistance will be offered, it is the client's sole responsibility to ensure that they have the required visas and paperwork to ensure trouble free border crossings.

OPTIONAL ACTIVITIES

Various optional activities are available during the course of our tours. These include white water rafting, bungee jumping, quad biking, etc. All of these activities are run by independent operators and Drifters cannot be held responsible should they not be available, or for any loss, damage, illness, injury or death suffered whilst participating in any optional activities and which shall be undertaken at the sole risk of the client.
